Fire departments across the country use the Knox® System to prevent costly forced entry damage while protecting lives and property. Knox key boxes, vaults and cabinets hold building entrance keys, electronic access cards and vital emergency information. Knox key switches and padlocks provide fire department access through property gates.

As the property owner, you purchase a KNOX-BOX® device then mount it near your building entrance or property gate according to fire department guidelines. Firefighters use a unique high security Knox® Master Key to open KNOX-BOX devices in their jurisdiction.
